Friday 5<sup>th</sup> March 2021

Dear Parents and Carers,

At Darnhall, both the staff and children have a true passion for science! Therefore, I am excited to tell you that on **Friday 12<sup>th</sup> March 2021** we will be having a Science Day! This is so we can take part in British Science Week alongside many other schools across the UK. This is something we as a school are really looking forward to especially this year as we can celebrate it back in school, within our classes.

This year's British Science Week focus is 'Innovating for the future'. The aim is to encourage children to think about the incredible inventions that have been made which have had an impact on our lives and inspire young people everywhere to innovate for the future. During the day, the children will take part in lots of engaging activities which link to this year's theme. On this special day, children can come in dressed as a famous inventor of their choice. This may require some research!

### **British Science Week Competition**

Choose any competition from below. It **MUST** be presented as a poster. There will be prizes in school and some competition entries will be sent to the organisers of British Science Week!

1. Think about your own innovation – from inventing your own toy that you want to share with your friends to a useful machine that will help your family or the whole world! How will it change the ways of play, sports and leisure, entertainment, communications, work, or even school?
2. Feeling futuristic and global? Why not think about an innovation – new ideas, inventions, products or services we have never heard before that would make the world a better place?
3. Do you know someone who is an awesome innovator? Try to showcase their innovations and reflect on how this person's innovations impacted the lives of many.

**DEADLINE – ALL entries for competitions to be in by 4pm Friday 19<sup>th</sup> March 2021 (sent on WHATSAPP 07701316490 ONLY).**

Thank you for helping us promote a love for science! If it is your child's PE day they will need to wear a costume that they can move about in freely.

Kind regards,

Miss Lupton

Science Coordinator
