

I joined the governing body at Darnhall as a parent governor in 1997. I have been chair of governors since 2006 and am proud to have worked with the governing body, staff, Darnhall families and children to improve the school over this period.

My professional background is in policing; I retired from Cheshire Constabulary as Chief Superintendent in 2013 having served for over 31 years. I had a varied policing career with significant experience in serious crime investigation and operational command which included Area Commander roles at Macclesfield, Halton and Warrington.

I am now a self-employed consultant working in areas including; Childrens Safeguarding, Leadership and Governance. I am committed to improving attainment and the life chances of Darnhall children through developing excellence in education and an inclusive approach to strengthening the community.

I believe your local school should be the best school for your children and will accept nothing but the highest aspiration for Darnhall children so that each child can realise their full potential.
