

Race into your New Class  
Ahead of the Game!

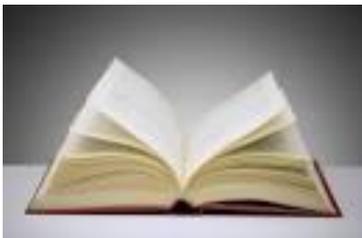

**Get Year 6 Ready!**

## **STOP the summer 'Learning Loss'**

To help your child race into their next academic year here are some suggested learning opportunities for over the holidays.

### **Mathematics**

- Recall multiplication and division facts for times tables up to 12 x 12
- Read, write, order and compare numbers up to 10,000,000

### **Reading**

Why not visit the town library and take part in the fun, exciting summer reading challenge?

The theme of this year's challenge is 'Space Chase' to mark 50 years since the first moon landing – how exciting!

Just visit your local branch from Saturday 13<sup>th</sup> July onwards in order to take part. It's all free, you don't even need identification to get a library card.

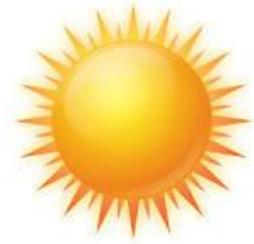

There's lots of activities and fun available at our local library in town this summer.

### **Spellings**

See attached your new year group's spellings. You can start reading them and learning how to spell them before you start your new class.

During the holidays, we would like you to do as many of these things as you can with your family:

- Share a story
- Go for a walk
- Play a board game
- Go for a picnic
- Make somebody laugh or smile
- Try new foods
- Have a family movie night
- Bake a cake
- Complete a random act of kindness for one of your family or a friend
- Learn new information about something that interests you

You will be learning about World War I and WW II as it was a significant turning point in British History.

You could make a fact file in September to share with your class!

We look forward to seeing all your wonderful work and ideas in the new academic year. Hopefully we will see some photographs too.

Have a relaxing, enjoyable summer and we look forward to seeing you on Tuesday 3rd September 2019.
